AGREEMENT AND CONSIDERATION

This document along with the corresponding *Schedule of Benefits* is your *contract* and it is a legal document. It is the agreement under which benefits will be provided and paid. In consideration of your application and the timely payment of premiums, we will provide benefits to you, the *enrollee*, for covered health care services as outlined in this *contract*. Benefits are subject to *contract* definitions, provisions, limitations and exclusions.

GUARANTEED RENEWABLE

Annually, we must file this product, the *cost share* and the rates associated with it for approval. Guaranteed renewable means that your *contract* will be renewed into the subsequent year's approved product on the anniversary date unless terminated earlier in accordance with *contract* terms. You may keep this *contract* (or the new *contract* you are mapped to for the following year, whether associated with a discontinuance or replacement) in force by timely payment of the required premiums. In most cases you will be moved to a new *contract* each year, however, we may decide not to renew the *contract* as of the renewal date if: (1) we decide not to renew all *contracts* issued on this form, with a new *contract* at the same metal level with a similar type and level of benefits, to residents of the state where you then live; (2) we withdraw from the *service area*; or (3) there is fraud or an intentional material misrepresentation made by or with the knowledge of an *enrollee* in filing a claim for *covered services*.

Annually, we will change the rate table used for this *contract* form. Each premium will be based on the rate table in effect on that premium's due date. The *contract* plan, and age of *enrollees,* type and level of benefits, and place of *residence* on the premium due date are some of the factors used in determining your premium rates. We have the right to change premiums however, all premium rates charged will be guaranteed for a calendar year.

In addition to the above, this guarantee for continuity of coverage shall not prevent us from cancelling or non-renewing this *contract* in the following events: (1) non-payment of premium; (2) an *enrollee* fails to pay premiums or contributions in accordance with the terms of this *contract*, including any timeliness requirements; (3) an *enrollee* has performed an act or practice that constitutes fraud or has made an intentional misrepresentation of material fact relating to this *contract*; or (4) a change in federal or state law, no longer permits the continued offering of such coverage, such as CMS guidance related to individuals who are Medicare eligible.

This *contract* contains *referral* requirements, outlined below, and *prior authorization* requirements, outlined in the Prior authorization and Access to Care sections, and your *Schedule of Benefits*. You are required to obtain a *referral* from your *primary care physician (PCP)* in order to obtain all services outside of a *PCP* visit, including, but not limited to, receiving care from a *specialist provider*. If your *PCP* refers you to a *specialist provider* in the same medical group as your *PCP*, a *referral* will not be required. *Referrals* will be required for care received outside of your medical group. You may seek services from an obstetrician/gynecologist, physical therapist, a *behavioral health* provider without a *referral*. You may seek *emergency care* and *urgent care* services without a *referral*. If you do not obtain

a *referral* from your *PCP*, then the services are not *covered services* and will not be paid for under this *contract*. In addition, any amounts you are required to pay for such services will not count towards your *maximum out of pocket amount*.

Sub-acute rehabilitation means one or more different types of therapy provided by one or more *rehabilitation licensed practitioners* and performed for one-half hour to two hours per day, five to seven days per week, while the *enrollee* is confined as an *inpatient* in a *hospital*, *rehabilitation facility*, or *extended care facility*.

When there is *Texas waiver*, you may be responsible for the *non-network provider's balance bill*, unless the No Surprises Act also provides *balance billing protections* and there is no *notice and consent* to receive the *non-network provider's* services (see definition of ***balance billing protections*** for additional information).

DEPENDENT ENROLLEE COVERAGE

Dependent Enrollee Eligibility

Your *dependent enrollees* become eligible for coverage under this *contract* on the latter of:

1. The date you became covered under this *contract*;
2. The date of marriage to add a *spouse*;
3. The date of an eligible newborn's birth;
4. The date that an adopted child is placed with the *enrollee* for the purposes of adoption or the *enrollee* assumes total or partial financial support of the child;
5. The date of termination that the Health Insurance Marketplace provides us upon your request of cancellation to the Health Insurance Marketplace, or if you enrolled directly with us, the last day of the month we receive a request from you to terminate this contract, or any later date stated in your request will be effective the last day of the requested month but no further than 60 days in advance;
6. The date a foster child is placed in your custody; or
7. The date a domestic partnership is established, pursuant to state law.

Effective Date for Initial Dependent Enrollees

Dependent enrollees included in the initial enrollment application for this *contract* will be covered on your *effective date*.

Coverage for a Newborn Child

An *eligible child* born to you or a covered family member will be covered from the time of birth until the 31st calendar day after its birth, unless we have received notice from the entity that you have enrolled (either the Health Insurance Marketplace or us). Each type of *covered service* incurred by the newborn child will be subject to the *cost sharing* amount listed in the *Schedule of Benefits*.

Additional premium will be required to continue coverage beyond the 31st calendar day after the date of birth. The required premium will be calculated from the child's date of birth. If notice of the newborn is given to us by the Health Insurance Marketplace within the 31 calendar days from birth, an additional premium for coverage of the newborn child will be charged for not less than 31 calendar days after the birth of the child. If notice is not given with the 31 calendar days from birth, we will charge an additional premium from the date of birth. If notice is given by the Health Insurance Marketplace within 60 calendar days of the birth of the child, we may not deny coverage of the child due to failure to notify us of the birth of the child or to pre-enroll the child. Coverage of the child will terminate on the 31st calendar day after its birth, unless we have received notice from the entity in which you have enrolled (either the Health Insurance Marketplace or us).

Coverage for an Adopted Child

An *eligible child* legally placed for adoption with you or your *spouse* will be covered from the date of *placement* until the 31st calendar day after *placement*, unless the *placement* is disrupted prior to legal adoption and the child is removed from your or your *spouse's* custody.

The child will be covered for *loss* due to *injury* and *illness*, including *medically necessary* care and treatment of conditions existing prior to the date of *placement*.

Additional premium will be required to continue coverage beyond the 31st calendar day following *placement* of the child and we have received notification from the Health Insurance Marketplace. The required premium will be calculated from the date of *placement* for adoption. Coverage of the child will terminate on the 31st calendar day following *placement*, unless we have received both: (A)

Notification of the addition of the child from the Health Insurance Marketplace within 60 calendar days of the birth or placement; and (B) any additional premium required for the addition of the child within 90 calendar days of the date of *placement*.

As used in this provision, "*placement*" means the earlier of:

1. The date that you or your *spouse* assume physical custody of the child for the purpose of adoption; or
2. The date of entry of an order granting you or your *spouse* custody of the child for the purpose of adoption and any child for whom you are a party in a suit in which the adoption of the child is sought.

Adding Other Dependent Enrollees

If you are enrolled in an off-exchange plan and apply in writing, or directly at enroll.ambetterhealth.com, to add a *dependent enrollee* and you pay the required premiums, we will send you written confirmation of the added *dependent enrollee's effective date* of coverage and member identification card for the added *dependent enrollee*.

ONGOING ELIGIBILITY

Please Note: You and your *dependent enrollees* must reside, live or work in the *service area* where the *contract* is issued. Additionally, you and your *dependent enrollees* must live in the same *residence*.

For All Enrollees

An *enrollee's* eligibility for coverage under this *contract* will cease on the earlier of:

1. The date that an *enrollee* is no longer within the Grace Period based on a failure to make timely payment. See the Grace Period provision for additional detail;
2. The primary *enrollee* residing outside the *service area* or moving permanently outside the *service area* of this *contract*;
3. The date the *enrollee* has performed an act or practice that constitutes fraud or made an intentional misrepresentation of a material fact;
4. The date of termination that the Health Insurance Marketplace provides us upon your request of cancellation to the Health Insurance Marketplace, or if you enrolled directly with us, the date we receive a request from you to terminate this *contract*, or any later date stated in your request;
5. The date we decline to renew this *contract*, as stated in the Discontinuance provision; or
6. The date of an *enrollee's* death.

For Dependent Enrollees

A *dependent enrollee* will cease to be an *enrollee* at the end of the premium period in which he/she ceases to be your *dependent enrollee*. For *eligible children*, coverage will terminate the 31st day of December the year that the dependent turns 26 years of age.

An *enrollee* will not cease to be a *dependent eligible child* solely because of age if the *eligible child* is:

1. Not capable of self-sustaining employment due to mental disabilities or physical disabilities; and
2. Mainly dependent on you for support and maintenance.

If you have material modifications (examples include a change in life event such as marriage, death or other change in family status), or questions related to your coverage, contact the Health Insurance Marketplace (Marketplace) at www.healthcare.gov or 1-800-318-2596. If you enrolled through Ambetter, please contact Member Services.

Prior Coverage

If an *enrollee* is confined as an *inpatient* in a *hospital* on the *effective date* of this *contract*, and prior coverage terminating immediately before the *effective date* of this *contract* furnishes benefits for the hospitalization after the termination of prior coverage, then services and benefits will not be covered under this *contract* for that *enrollee* until the *enrollee* is discharged from the *hospital* or benefits under the prior coverage are exhausted, whichever is earlier. "Discharge" means a formal release of an *enrollee* from an *inpatient hospital* stay when the need for continued care at an *inpatient hospital* has concluded. Transfers from one *inpatient hospital* to another shall not be considered a discharge.

If there is no prior coverage or no continuation of *Inpatient* coverage after the *Effective Date*, your Ambetter coverage will apply for *covered services* related to the *Inpatient* coverage after your *Effective Date*. Ambetter coverage requires you notify Ambetter within two calendar days of your *Effective Date* so we can review and Authorize *Medically Necessary* services. If services are at a

non-contracted *Hospital*, claims will be paid at the Ambetter allowable and you may be billed for any balance of costs above the Ambetter allowable.

Open Enrollment

There will be an open enrollment period for coverage on the Health Insurance Marketplace. The open enrollment period begins November 1, 2024 and extends through January 15, 2025. *Qualified individuals* who enroll on or before December 15, 2024 will have an *effective date* of coverage on January 1, 2025.

The Health Insurance Marketplace may provide a coverage *effective date* for a *qualified individual* earlier than specified in the paragraphs above, provided that either:

1. The *qualified individual* has not been determined eligible for *advance premium tax credit* or *cost sharing reductions*; or
2. The *qualified individual* pays the entire premium for the first partial month of coverage as well as all *cost sharing*, thereby waiving the benefit of *advance premium tax credit* and *cost sharing reduction* payments until the first of the next month. We will send written annual open enrollment notification to each *enrollee* no earlier than September 1st, and no later than September 30th.

A *qualified individual* gains a *dependent* or becomes a *dependent* through marriage, birth, adoption, placement for adoption, placement in foster care, or a child support order or other court order. 6. A *qualified individual*, *enrollee*, or *dependent*, adequately demonstrates to the Health Insurance Marketplace that a material error related to plan benefits, *service area*, or premium influenced the *qualified individual's* or *enrollee's* decision to purchase the *QHP*;
7. An *enrollee* or *dependent* enrolled in the same plan is determined newly eligible or newly ineligible for *advance premium tax credits* or has a change in *eligibility* for *cost sharing reductions*;
8. A *qualified individual* or *dependent* who is enrolled in an eligible employer-sponsored plan is determined newly eligible for *advance premium tax credits* based in part on a finding that

such individual is ineligible for qualifying coverage in an eligible-employer sponsored plan in accordance with 26 CFR §1.36B-2(c)(3);

9. A *qualified individual*, *enrollee*, or *dependent* gains access to new *QHPs* as a result of a permanent move, and had *minimum essential coverage* as described in 26 CFR 1.5000A–1(b) for one or more calendar days during the 60 calendar days preceding the date of the permanent move;

13. A *qualified individual* or *dependent* is determined to be potentially eligible for Medicaid or Children's Health Insurance Program (CHIP), but is subsequently determined to be ineligible after the open enrollment period has ended or more than 60 calendar days after the qualifying event; or applies for coverage at the State Medicaid or CHIP agency during the annual open enrollment period, and is determined ineligible for Medicaid or CHIP after open enrollment has ended;
14. A *qualified individual* newly gains access to an employer sponsored Individual Coverage Health Reimbursement Arrangement (ICHRA) (as defined in 45 CFR 146.123(b)) or a Qualified Small Employer Health Reimbursement Arrangement (QSHRA) (as defined in section 9831(d)(2) of the Internal Revenue Code);
15. At the option of the Health Insurance Marketplace, a *qualified individual* provides satisfactory documentary evidence to verify his or her eligibility for an insurance affordability program or enrollment in a plan through the Health Insurance Marketplace following termination of enrollment due to a failure to verify such status within the time period specified in 45 C.F.R. § 155.315 or is under 100 percent of the federal poverty level and did not enroll in coverage while waiting for HHS to verify his or her citizenship, status as a national, or lawful presence; or
16. A *qualified individual* or dependent is enrolled in COBRA continuation coverage for which an employer is paying all or part of the premiums, or for which a government entity is providing subsidies, and the employer completely ceases its contributions or government subsidies completely cease.

The Health Insurance Marketplace is responsible for all health care eligibility and enrollment decisions for *enrollees* who enrolled via the Marketplace.

If you are currently enrolled in Ambetter from Superior HealthPlan, please contact Member Services with any questions related to your health insurance coverage.

Coverage Effective Dates for Special Enrollment Periods

Regular effective dates. Except as specified below, coverage will be effective on the first of the month following plan selection.

Special effective dates. In the case of birth, adoption, placement for adoption, or placement in foster care, coverage is effective for a *qualified individual* or *enrollee* on the date of birth, adoption, placement for adoption, or placement in foster care. In the case of marriage, or in the case where a *qualified individual* loses *minimum essential coverage*, coverage is effective on the first day of the following month.

In the case of erroneous enrollment, contract violation, or exceptional circumstances, coverage is effective on an appropriate date based on the circumstances of the special enrollment period, in accordance with guidelines issued by the Department of Health and Human Services. Such date must be either (i) the date of the event that triggered the special enrollment period or (ii) in accordance with the regular *effective dates*.

If a *qualified individual*, *enrollee*, or *dependent* loses coverage, gains access to a new *QHP*, becomes newly eligible for enrollment in a *QHP*, becomes newly eligible for advance payments of the premium tax credit in conjunction with a permanent move, or is enrolled in COBRA continuation coverage and employer contributions to or government subsidies completely cease, and if the plan selection is made on or before the day of the triggering event the Health Insurance Marketplace must ensure that the coverage *effective date* is the first calendar day of the month following the date of the triggering event. If the plan selection is made after the date of the triggering event, coverage is effective on the first calendar day of the following month.

If a *qualified individual*, *enrollee*, or *dependent* newly gains access to an ICHRA or is newly provided a QSEHRA, and if the plan selection is made before the day of the triggering event, coverage is effective on the first calendar day of the month following the date of the triggering event or, if the triggering event is on the first calendar day of a month, on the date of the triggering event. If the plan selection is made on or after the day of the triggering event, coverage is effective on the first calendar day of the month following plan selection.

If a *qualified individual*, *enrollee*, or *dependent* did not receive timely notice of an event that triggers eligibility for a special enrollment period, and otherwise was reasonably unaware that a qualifying event occurred, the Health Insurance Marketplace must allow the *qualified individual*, *enrollee*, or *dependent* to select a new plan within 60 calendar days of the date that he or she knew, or reasonably should have known, of the occurrence of the triggering event. And at the option of a *qualified individual*, *enrollee* or *dependent,* the Health Insurance Marketplace must provide the earliest effective that would have been available, based on the applicable qualifying event.

PREMIUMS

Premium Payment

Each premium is to be paid on or before its due date. The initial premium must be paid prior to the coverage *effective date*, although an extension may be provided during the annual Open Enrollment period.

Grace Period

When an *enrollee* is receiving a premium subsidy:

Grace Period: A grace period of three months will be granted for the payment of each premium due after the first premium. During the grace period, the *contract* continues in force.

If full payment of premium is not received within the grace period, coverage will be terminated as of the last day of the first month during the grace period, if *advance premium tax credits* are received.

We will continue to pay all appropriate claims for *covered services* rendered to the *enrollee* during the first and second month of the grace period, and may pend claims for *covered services* rendered to the *enrollee* in the third month of the grace period. We will notify Health and Human Services (HHS) of the non-payment of premiums, the *enrollee*, as well as *providers* of the possibility of denied claims when the *enrollee* is in the third month of the grace period. We will continue to collect *advance premium tax credits* on behalf of the *enrollee* from the Department of the Treasury, and will return the *advance premium tax credits* on behalf of the *enrollee* for the second and third month of the grace period if the *enrollee* exhausts their grace period as described above. An *enrollee* is not eligible to re-enroll once terminated, unless an *enrollee* has a special enrollment circumstance, such as a marriage or birth in the family or during annual open enrollment periods.

When an *enrollee* is not receiving a premium subsidy:

Grace Period: A grace period of 30 calendar days will be granted for the payment of each premium due after the first premium. During the grace period, the *contract* continues in force.

Premium payments are due in advance, on a calendar month basis. Monthly payments are due on or before the first calendar day of each month for coverage effective during such month. There is a 30 calendar day grace period. This provision means that if any required premium is not paid on or before the date it is due, it may be paid during the grace period. During the grace period, the *contract* will stay in force; however, claims may pend for *covered services* rendered to the *enrollee* during the grace period. We will notify the *enrollee*, as well as *providers,* of the possibility of denied claims when the *enrollee* is in the grace period.

Third Party Payment of Premium or Cost Sharing

We require each *enrollee* to pay his or her premiums and this is communicated on your monthly billing statements. Our payment policies were developed based on guidance from the Centers for Medicare and Medicaid Services (CMS) recommendations against accepting *third party* premiums. Consistent with CMS guidance, the following are the ONLY acceptable third parties who may pay premiums on your behalf:

1. Ryan White HIV/AIDS Program under title XXVI of the Public Health Service Act;
2. Indian tribes, tribal organizations or urban Indian organizations;
3. State and federal government programs;
4. Family members;

5. An employer for an employee under an Individual Coverage Health Reimbursement Account (ICHRA) or Qualified Small Employer Health Reimbursement Account (QSEHRA) plan; or
6. Private, not-for-profit foundations which have no incentive for financial gain, no financial relationship, or affiliation with *providers* of *covered services* and supplies on behalf of *enrollees*, where eligibility is determined based on defined criteria without regard to health status and where payments are made in advance for a coverage period from the *effective date* of eligibility through the remainder of the calendar year.

Upon discovery that premiums were paid by a person or entity other than those listed above, we will reject the payment and inform the *enrollee* that the payment was not accepted and that the premium remains due.

Misstatement of Age

If an *enrollee's* age has been misstated, the *enrollee's* premium may be adjusted to what it should have been based on the *enrollee's* actual age, we have the right to rerate the *contract* back to the original *effective date*.

Change or Misstatement of Residence

If you change your *residence*, you must notify the Health Insurance Marketplace of your new *residence* within 60 calendar days of the change. As a result your premium may change and you may be eligible for a Special Enrollment Period. See the Special Enrollment Periods provision for more information.

Misstatement of Tobacco or Nicotine Use

The answer to the tobacco or nicotine question on the enrollment application is material to our correct underwriting. If an *enrollee's use of tobacco or nicotine* has been misstated on the *enrollee's* enrollment application for coverage under this *contract*, we have the right to rerate the *contract* back to the original *effective date*.

COST SHARING FEATURES

Cost Sharing Features

We will pay benefits for *covered services* as described in the *Schedule of Benefits* and the *covered services* sections of this *contract*. All benefits we pay will be subject to all conditions, limitations, and *cost sharing* features of this *contract*. *Cost sharing* means that you participate or share in the cost of your health care services by paying *deductible amounts*, *copayments* and *coinsurance* for some *covered services*. For example, you may need to pay a *deductible*, *copayment* or *coinsurance* amount when you visit your *physician* or are admitted into the *hospital*. The *copayment* or *coinsurance* required for each type of service as well as your *deductible* is listed in your *Schedule of Benefits*.

When you, or a covered dependent, receive health care services from a *provider*, there may be multiple claims for that episode of care. An episode of care means the services provided by a health care *facility* or *provider* to treat a condition or an *illness*. Each claim that we receive for services covered under this *contract* are adjudicated or processed as we receive them. Coverage is only provided for *eligible expenses*. Each claim received will be processed separately according to the cost share as outlined in the *contract* and in your S*chedule of Benefits*.

Deductibles

The benefits of this *contract* will be available after satisfaction of the applicable *deductibles* as shown on your *Schedule of Benefits*. The *deductibles* are explained as follows:

Calendar Year *Deductible*: The individual *deductible amount* shown under "*Deductibles*" on your *Schedule of Benefits* must be satisfied by each *enrollee* under your coverage each calendar year.

This *deductible*, unless otherwise indicated, will be applied to all categories of *eligible expenses* before benefits are available under this *contract*.

The following are exceptions to the *deductibles* described above:

1. If you have several covered dependents, all charges used to apply toward an "individual" *deductible amount* will be applied toward the "family" *deductible amount* shown in your *Schedule of Benefits*.
2. When that family *deductible amount* is reached, no further individual *deductibles* will have to be satisfied for the remainder of that calendar year. No *enrollee* will contribute more than the individual *deductible amounts* to the "family" *deductible amount*.

The *deductible amount* does not include any *copayment amount*.

Copayments

A *copayment* is typically a fixed dollar amount due at the time of service*. Enrollees* may be required to pay *copayments* to a *provider* each time services are performed that require a *copayment*. *Copayments,* as shown in the *Schedule of Benefits,* are due at the time of service. Payment of a *copayment* does not exclude the possibility of a *provider* billing you for any non-*covered services*. *Copayments* do not count or apply toward the *deductible amount*, but do apply toward your *maximum out-of-pocket amount*.

Coinsurance Percentage

We will pay the applicable *coinsurance* in excess of the applicable *deductible amount(s)* and *copayment amount(s)* for a service or supply that:

1. Qualifies as a *covered service expense* under one or more benefit provisions; and
2. Is received while the *enrollee's* plan is in force under the *contract* if the charge for the service or supply qualifies as an *eligible expense*.

When the annual *maximum out-of-pocket amount* has been met, additional *covered service expenses* will be provided or payable at 100 percent of the allowable expense.

The amount provided or payable will be subject to:

1. Any specific benefit limits stated in the *contract*;
2. A determination of *eligible expenses*;
3. Any reduction for expenses incurred at a non-network provider.

Please refer to the applicable *deductible amount(s)*, *coinsurance amounts*, and *copayment amounts* on your *Schedule of Benefits*.

Non-Network Liability and Balance Billing

If you receive services from a *non-network provider*, you may have to pay more for services you receive. *Non-network providers* may be permitted to bill you for the difference between what we agreed to pay and the full *billed amount* for a service. This is known as *balance billing*. This amount is likely more than *network* costs for the same service and might not count toward your annual *maximum out-of-pocket amount* limit. However, you will not be *balance billed* when *balance billing protections* apply to *covered services*.

Changing the Deductible

You may increase the *deductible* to an amount currently available only if enrolled through a special enrollment period. A request for an increase in the *deductible* between the first and 15th day of the month will become effective on the first day of the following month. Requests between the 16th and last day of the month will become effective on the first day of the second following month. Your premium will then be adjusted to reflect this change.

Coverage Under Other Contract Provisions

Charges for services and supplies that qualify as *covered service expenses* under one benefit provision will not qualify as *covered service expenses* under any other benefit provision of this *contract*.

MANAGING YOUR HEALTH CARE

HMO Referral

HMO *referrals* are a formal recommendation made by your *PCP* to see a network *specialist* or other *providers* for additional health care services deemed *medically necessary*. A *referral* is required prior to a non-emergent in-person visit with a practitioner outside of your *PCP*. Failure to obtain a *referral* will result in denial of benefit coverage or *enrollees* may not be able to make an appointment.

Referrals are required for all *medically necessary* health care services not provided by your *PCP*, excluding *emergency care*, urgent care, *behavioral health*, OB/GYN, and physical therapy. If a *referral* is not obtained for non-emergent care, services will be denied. *Covered services* and/or specialties not requiring a *referral* may still require *prior authorization*.

If a referral is not obtained for non-emergent care, services will be denied. *Emergency care* does not require a referral or need to be in-network.

Services performed by a *specialist* may have a higher out-of-pocket *enrollee* costs than from services received from a *PCP*.

For any additional questions please contact Member Services.

Continuity of Care and Special Circumstances

Under the federal No Surprises Act, if an *enrollee* a continuing care patient with respect to an *network provider* and the contractual relationship with the *provider* is terminated, such that the *provider* is no longer in the *network*; or benefits are terminated because of a change in the terms of the participation of the *provider*, as it pertains to the services the *enrollee* is receiving as a continuing care patient, the *provider* must identify and request that *enrollees* experiencing special circumstances may be permitted to continue treatment under their care. Special circumstances mean conditions regarding which a treating physician or provider reasonably believes that discontinuing care by that physician or provider could cause harm to a patient, except for reason of medical competence or professional behavior, an HMO is not released from the obligation of continuing to reimburse a physician or provider providing *medically necessary* treatment at the time of termination to an *enrollee* who has a special circumstance. Examples include disabilities, acute conditions, life-threatening illness, or are past the 24th week of pregnancy and the associated obligatory period. Coverage will extend through the delivery of the child and will apply to immediate postpartum care and a follow-up checkup within the six week period after delivery. Then we will:

1. Notify each *enrollee* who is a *continuing care patient* on a timely basis of the termination and their right to elect continued transitional care from the provider or facility;
2. Provide the individual with an opportunity to notify the health plan of the *enrollee's* need for transitional care; and
3. Permit the *enrollee* to elect to continue to have their benefits for the course of treatment relating to the individual's status as a *continuing care patient* during the period beginning on the date on which the above notice is provided and ending on the earlier of
    a. 90 calendar days after the notice described in (1) is provided;
    b. The 9 month period for an *enrollee* that has been diagnosed with a terminal illness at the time of the *provider* termination; or the
    c. The date on which such *enrollee* is no longer a *continuing care patient* with respect to the provider.

Non-Emergency Services
If you are traveling outside of the Texas service area you may be able to access *providers* in another state if there is an Ambetter Value plan located in that state. You can locate Ambetter Value *providers* outside of Texas by searching the relevant state in our provider directory at https://guide.ambetterhealth.com. Not all states have Ambetter Value plans. If you intend to seek care from an Ambetter Value *provider* outside of the service area, you may be required to obtain *prior authorization* from the originating state for non-emergency services. Contact Member Services at the phone number on your member identification card for further information.

Emergency Services Outside of Service Area
We cover *emergency* services when you are outside of our *service area*. If you are temporarily out of the *service area* and experience an *emergency* condition, call 911 or go to the nearest emergency room. You do not need *prior authorization* for *emergency services*.

New Technology
Health technology is always changing. If we think a new medical advancement can benefit our *enrollees*, we evaluate it for coverage. These advancements include:

1. New technology
2. New medical procedures
3. New drugs
4. New devices
5. New application of existing technology

Sometimes, our medical director and/or medical management staff will identify technological advances that could benefit our *enrollees*. The Clinical Policy Committee (CPC) reviews requests for coverage and decides whether we should change any of our benefits to include the new technology.

If the CPC does not review a request for coverage of new technology, our Medical Director will review the request and make a one-time determination. The CPC may then review the new technology request at a future meeting.

Preferred Partnership
As innovative technologies and solutions are established in market under expedited research and development, we may elect to offer, at our discretion, new services or preferred partnerships designed to improve access to care and enhance care management. Ambetter will provide access to third party services at preferred or discounted rate. The preferred or discounted rates to these services may be communicated to all *enrollees* by email, mail or phone promotions. The preferred partnerships are optional benefits to all *enrollees*.

Primary Care Physician (PCP)
All *enrollees* must select a *PCP* within a medical group. You may select any *network PCP* within a medical group who is accepting new patients, or you may select a *network provider* of which you are a current patient who is within a medical group. If you do not select a *network PCP* for each *enrollee*, one may be assigned. You may obtain a list of *network primary care physician* at Ambetter.SuperiorHealthPlan.com or by contacting Member Services. Until a *PCP* is selected or assigned, benefits will be limited to coverage for *emergency care*. You may select any *network PCP* who is accepting new patients from any of the following health care professional types:

1. Family practitioners
2. General practitioners
3. Internal medicine
4. Nurse practitioners*

5. Physician assistants
6. Obstetricians/gynecologists
7. Pediatricians (for children)

Your *PCP* coordinates your medical care, as appropriate, either by providing treatment or by issuing *referrals* to direct you to *participating providers*. When admitted to an inpatient facility, and only through the duration of your inpatient stay, a physician other than the *PCP* may direct and oversee your care. Except for *emergency care*, only those services which are provided by or referred by your *PCP* will be covered. It is your responsibility to consult with your *primary care physician* in all matters regarding your medical care. If your *PCP* performs, suggests, or recommends a course of treatment for you that includes services that are not *covered services*, the entire cost of any such non-*covered services* will be your responsibility.

In addition to a *PCP*, female *enrollees* may also select a participating Obstetrician/Gynecologist (OB/GYN) for gynecological and obstetric conditions, including annual well-woman examinations and maternity care, without first obtaining a *referral* from a *PCP* or contacting us. Mental health or *substance use disorder* providers do not require a *referral*. *Enrollees* who have been diagnosed with a chronic, disabling or life threatening illness may request approval to choose a participating *specialist* as a *PCP* using the process described in the Specialist as a Primary Care Physician provision.

Specialist as a Primary Care Physician (PCP)

If you have been diagnosed with a chronic, disabling, or life-threatening illness, you may contact Member Services at the number listed on the back of your *member* identification card to get information to submit for approval from us to choose a participating *specialist* as your *PCP*. We require both you and the participating *specialist* interested in serving as your *PCP* to sign a certification of medical need, to submit along with all supporting documentation. The *participating specialist* must meet our requirements for *PCP* participation and be willing to accept the coordination of all your health care needs. If your request is denied, you may appeal the decision as described in Complaint and Appeal Procedures provision. If your request is approved, the *specialist's* designation as your *PCP* will not be effective retroactively.

Contacting Your Primary Care Physician (PCP)

To make an appointment with your *PCP*, call his/her office during business hours and set up a date and time. If you need to cancel or change your appointment, call 24 hours in advance. At every appointment, make sure you bring your member identification card and photo identification.

Should you need care outside of your *PCP's* office hours, you should call your *PCP's* office for information on receiving after hours care in your area. If you have an urgent medical problem or question or cannot reach your *PCP* during normal office hours, call our 24/7 nurse advice line at 1-877-687-1196 (Relay Texas/TTY 1-800-735-2989). A licensed nurse is always available and ready to answer your health questions. In an emergency, call 911 or head straight to the nearest emergency room.

Your *network PCP* will assist you in coordinating all covered health services with other *network providers,* if necessary. Should *medically necessary* covered health care services not be available through *network providers*, upon the request of a *network PCP*, within the time appropriate to the circumstances relating to the delivery of the health care services and your condition, but in no event to exceed five business days after receipt of reasonably requested documentation, we shall allow a referral to a *non-network provider* and shall fully reimburse the *non-network provider* at the usual and

customary rate or agreed rate. *Medically necessary referrals* to *non-network providers* due to non-availability within the *network* will be subject to the *prior authorization* process.

Changing Your Primary Care Physician (PCP)

You can see any provider withing your assigned without having to formally change your *PCP*. You may change your assigned m*edical group* or network *primary care physician* for any reason, but not more frequently than once a month, by submitting a written request, online at our website at Ambetter.SuperiorHealthPlan.com or by contacting our office at the number shown on your identification card. The change to your *network primary care physician* of record will be effective no later than 30 calendar days from the date we receive your request.

Prior Authorization

Ambetter reviews services to ensure the care you receive is the best way to help improve your health condition. *Utilization review* includes:

1. Pre-service or *prior authorization* review – occurs when a medical service has been pre-approved by Ambetter
2. Concurrent review – occurs when a medical service is reviewed as they happen (e.g., *inpatient* stay or *hospital* admission)
3. Retrospective review – occurs after a service has already been provided.

Pursuant to the federal No Surprises Act, *emergency services* received from a *non-network provider* are *covered services* without *prior authorization*.

For certain providers, we do not require *prior authorization* for certain health care services if in the most recent six-month evaluation period, we have approved or would have approved not less than 90 percent of the *preauthorization* requests submitted by the physician or provider for the particular health care service.

Some medical, pharmaceutical and *behavioral health covered services* require *prior authorization*. In general, *network providers* do not need to obtain *authorization* from us prior to providing a service or supply to an *enrollee*. However, there are some *covered services* for which you must obtain the *prior authorization*.

For services or supplies that require *prior authorization*, as shown on the *Schedule of Benefits*, you must obtain *authorization* from us before you or your *dependent enrollee*:

1. Receives a service or supply from a *non-network provider*;
2. Are admitted into a *network facility* by a *non-network provider*; or
3. Receives a service or supply from a *network provider* to which you or your *dependent enrollee* were referred by a *non-network provider*.

We suggest that *prior authorization* (medical, pharmaceutical and *behavioral health*) requests are submitted to us by Provider Portal/efax/phone call as follows:

1. At least five calendar days prior to an elective admission as an *inpatient* in a *hospital*, *extended care* or *rehabilitation facility*, *hospice facility*, or residential treatment facility.
2. At least 30 calendar days prior to the initial evaluation for organ transplant services.
3. At least 30 calendar days prior to receiving clinical trial services.
4. Within 24 hours of any *inpatient* admission, including emergent *inpatient* admissions.
5. At least five calendar days prior to the scheduled start of *home health services*, except those *enrollees* needing *home health services* after *hospital* discharge.

After *prior authorization* has been received, we will notify you and your *provider* if the request has been *approved* as follows:

1. For services that require *prior authorization*, within three calendar days upon return.
2. For concurrent review, within 24 hours of receipt of the request.
3. For post-stabilization treatment or life-threatening condition, within the timeframe appropriate to the circumstances and condition of the *enrollee*, but not to exceed one hour of receipt of the request.
4. For post-service requests, within 30 calendar days of receipt of the request.

You do not need to obtain *prior authorization* from us or from any other person (including your *PCP*) in order to obtain access to obstetrical or gynecological care from a *medical practitioner* in our *network* who specializes in obstetrics or gynecology. The *medical practitioner*, however, may be required to comply with certain procedures, including obtaining *prior authorization* for certain services, following a pre-approved treatment plan or procedures for making *referrals*. For a list of participating *medical practitioners* who specialize in obstetrics or gynecology, contact Member Services.

Please note: For more information on the *prior authorization* requirements and information on the *prior authorization* process, please visit Ambetter.SuperiorHealthPlan.com.

Prior Authorization Renewal Process

Medical Management will process requests for *prior authorization* renewals at least 60 calendar days before the date the preauthorization expires. As reference in House Bill 3041, 86th Texas Legislature.

If the issuer receives a renewal request before the existing preauthorization expires, the issuer must, if practicable, review and issue a determination before the existing preauthorization expires.

How to Obtain Prior Authorization

To obtain *prior authorization* or to confirm that a *network provider* has obtained *prior authorization*, contact us by telephone at the telephone number listed on your member identification card before the service or supply is provided to the *enrollee*.

Failure to Obtain Prior Authorization

Failure to comply with the *prior authorization* requirements will result in benefits being reduced or not covered.

Network providers cannot bill you for services for which they fail to obtain *prior authorization* requirements prior to receiving *emergency services.* However, you must contact us as soon as reasonably possible after you receive the *emergency services*.

Emergency care does not require *prior authorization*.

In cases of emergency, benefits will not be reduced for failure to comply with *prior authorization* requirements. However, you must contact us as soon as reasonably possible after the emergency occurs.

Prior Authorization Does Not Guarantee Benefits

Our *authorization* does not guarantee either payment of benefits or the amount of benefits and is only a statement that proposed services are *medically necessary* and appropriate. If a *provider* materially misrepresents the proposed medical or health care services, or has substantially failed to perform the proposed medical or health care services, we may deny or reduce payment to the *provider*. Eligibility

for and payment of benefits are subject to all terms and conditions of the *contract*. We may not deny or reduce payment to the *physician* or *provider* once *prior authorization* is received.

Prior Authorization Denials

Refer to the Complaint and Appeals Procedures section of this *contract* for information on your rights to *appeal* a denied *authorization*.

Hospital Based Providers

When receiving care at a *network hospital* it is possible that some *hospital*-based providers may not be *network providers*. You may not be *balance billed* for *emergency care* service, services provided by *non-network* facility based providers, *non-network* diagnostic imaging providers or laboratory services providers. However, if you there is *notice and consent* and/or *Texas waiver* to waive *balance billing protections*, you may be responsible for payment of all or part of the *balance bill*. Any amount you are obligated to pay to the *non-network provider* in excess of the *eligible expense* will not apply to your *deductible amount* or *maximum out-of-pocket amount.* If you receive a balance bill from a hospital based provider, contact Member Services.

Durable Medical Equipment, Prosthetics, and Orthotic Devices

The supplies, equipment and appliances described below are *covered services* under this benefit. If the supplies, equipment and appliances include comfort, luxury, or convenience items or features which exceed what is *medically necessary* in your situation or needed to treat your condition, reimbursement will be based on the maximum allowed amount for a standard item that is a *covered service*, serves the same purpose, and is *medically necessary*. *Durable medical equipment* and supplies are subject to *prior authorization* as outlined in this *contract*.

Any expense that exceeds the maximum allowed amount for the standard item which is a *covered service* is your responsibility. For example, the reimbursement for a motorized wheelchair will be limited to the reimbursement for a standard wheelchair, when a standard wheelchair adequately accommodates your condition. Repair, adjustment and replacement of purchased equipment, supplies or appliances as set forth below may be covered, as *approved* by us. The repair, adjustment or replacement of the purchased equipment, supply or appliance is covered if:

1. The equipment, supply or appliance is a *covered service*;
2. The continued use of the item is *medically necessary*; and
3. There is reasonable justification for the repair, adjustment, or replacement (warranty expiration is not reasonable justification).

In addition, replacement of purchased equipment, supplies or appliance may be covered if:

1. The equipment, supply or appliance is worn out or no longer functions.
2. Repair is not possible or would equal or exceed the cost of replacement. An assessment by a *network durable medical equipment* vendor should be done to estimate the cost of repair.
3. Individual's needs have changed and the current equipment is no longer usable due to weight gain, rapid growth, or deterioration of function, etc.
4. The equipment, supply or appliance is damaged and cannot be repaired.

Benefits for repairs and replacement do not include the following:

1. Repair and replacement due to misuse, malicious breakage or gross neglect.
2. Replacement of lost or stolen items.

We may establish reasonable quantity limits for certain supplies, equipment or appliance described below.

Emergency Services

The plan provides coverage for *emergency conditions* wherever they occur. Examples of *emergency*

conditions are unusual or excessive bleeding, broken bones, acute abdominal or chest pain, unconsciousness, convulsions, difficult breathing, suspected heart attack, sudden persistent pain, severe or multiple *injuries* or burns, and poisonings. If you experience an *emergency condition*, you should call 911 or head straight to the nearest emergency room. We cover *emergency services* both in and out of our *service area*. We cover these services 24 hours a day, 7 days a week.

If reasonably possible, contact your *network provider* or *behavioral health* practitioner before receiving *emergency services*. They can help you determine if you need *emergency services* of an accidental *injury* and recommend that care. If not reasonably possible, go to the nearest emergency *facility*, whether or not the *facility* is in the *network*.

Whether you require hospitalization or not, you must notify your *PCP* or *behavioral health* practitioner within 48 hours, or as soon as reasonably possible, of receiving any *emergency services* so he or she can recommend the continuation of any necessary medical services.

All treatment received from a *non-network provider* for an *emergency condition* prior to stabilization, and including services originating in an emergency *facility* following treatment or stabilization of an *emergency condition* until you can reasonably be expected to transfer to a *network facility* or as otherwise approved by us, will be treated as *covered services* received from a *network provider*.

Treatment provided by *non-network providers* after *stabilization* of the *emergency condition*, requires *authorization*. We will facilitate transfer to a *network facility* for necessary *inpatient* care following stabilization of an *emergency condition* treated at a non-*network facility*. Please notify us as soon as reasonably possible upon receiving treatment for an *emergency condition*. Unless *authorized* by us, services received from a *non-network provider* following stabilization of an *emergency condition* are not *covered services*.

NOTE: Some providers that provide *emergency services* may not be in your *network*. These services are subject to *balance billing protections* and the *non-network provider* may not balance bill you for the difference between our *allowed amount* and their *billed amount*. *Post-stabilization services* are also entitled to *balance billing protections* unless there is *notice and consent*.

Services include the collecting, freezing, preserving of ova or sperm, and other standard services that are not *experimental or investigational*. (Storage is an exclusion.)

Coverage may be limited to *in-network providers* for fertility preservation services unless the issuer does not have an *in-network provider* with the appropriate training and expertise to meet the needs of the *enrollee*. *Prior authorization* and/or *referrals* may be required.

    a. Recognized for the treatment of the indication in at least one (1) standard reference compendium; or

The *covered service expenses* shall be no less favorable than for intravenously administered or injected cancer medications that are covered as medical benefits under this *contract*. The appropriate drug choice for an *enrollee* is a determination that is best made by the *enrollee* and his or her *physician*.

Please refer to our *formulary* for tier placement of insulin medications and your *Schedule of Benefits* for your *cost share* responsibility for the associated drug tier. The total amount you will be required to pay for a covered insulin drug will not exceed any state and/or federally mandated limits. Emergency refills of insulin and insulin-related equipment will be covered in the same manner as non-emergency refills.

Formulary or Prescription Drug List
The formulary or prescription drug list is a guide to available generic and brand name drugs and some over-the-counter medications when ordered by a *physician* that are approved by the United States Food and Drug Administration (FDA) and covered through your prescription drug benefit. Generic drugs have the same active ingredients as their brand name counterparts and should be considered the first line of treatment. The FDA requires generics to be safe and work the same as brand name drugs. If there is no generic available, there may be more than one brand name drug to treat a condition. Preferred brand name drugs are listed on Tier 2 of the Drug List to help identify brand name drugs that are clinically appropriate, safe and cost effective treatment options, if a generic medication on the formulary is not suitable for your condition.

Please note, the formulary is not meant to be a complete list of the drugs covered under your prescription benefit. Not all dosage forms or strengths of a drug may be covered. This list is periodically reviewed and updated and may be subject to change. Drugs may be added or removed or additional requirements may be added in order to approve continued usage of a specific drug. If we negatively modify the formulary we will perform such modifications at the time of coverage renewal. We will notify you at least 60 calendar days in advance of such modification if you are affected by the change in drug coverage. Negative changes are defined as removing the drug from the formulary, adding quantity limit, adding *prior authorization* requirements, and adding step therapy requirements of moving drug to higher tier. Negative changes are generally made once per year.

Specific prescription benefit plan designs may not cover certain products or categories, regardless of their appearance in the formulary. For the most current Ambetter Formulary or Prescription Drug List or for more information about our pharmacy program, visit Ambetter.SuperiorHealthPlan.com (under “For Member”, “Drug Coverage”) or call Member Services.

The appropriate drug choice for an *enrollee* is a determination that is best made by the *enrollee* and his or her *physician*.

Coverage is provided for any *prescription drug* that was *approved* or covered under our formulary for a medical condition or mental *illness*, regardless of whether the drug has been removed from our drug formulary, at the contracted benefit level until the *contract* renewal date.

Certain specialty and non-specialty generic medications may be covered at a higher *cost share* than other generic products. Please reference the formulary and *Schedule of Benefits* for additional information. For purposes of this section, the tier status as indicated by the formulary will be applicable.

You will not be required to pay more than the applicable *copayment*, allowable claim amount, or amount required without insurance or discounts at the time of purchase.

Your total drug cost will always be either your *copayment* amount for the specific tier (after the *deductible*, if applicable) or the total cost of the drug, whichever is less. We do not charge a penalty for use of formulary brand drugs when a generic is available.

For prescription eye drops to treat a chronic eye disease or condition, refills are dispensed on or before the last calendar day of the prescribed dosage period, but not earlier than the following:

2. 42nd calendar day after the date a prescription for a 60 calendar day supply of eye drops is dispensed; or

3. 63rd calendar day after the date a prescription for a 90 calendar day supply of eye drops is dispensed.

Please note: We will provide a 30 calendar day notice prior to the discontinuance of concurrent prescription drugs and intravenous infusions.

You can access the Provider Directory at Ambetter.SuperiorHealthPlan.com on the Find a Doctor page. You can also call Member Services to help you find a pharmacy. At the pharmacy, you will need to provide the pharmacist with your prescription and your member identification card.

Although medical supervision or instruction may be needed in the beginning, the patient or caregiver can administer *self-injectable drugs* safely and effectively. *Self-injectable drugs* are covered under the *prescription drug* benefits; *prescription drug cost share* applies.

Non-Formulary and Tiered Formulary Contraceptives:
Under the Affordable Care Act, you have the right to obtain contraceptives that are not listed on the formulary (otherwise known as "non-formulary drugs") and tiered contraceptives (those found on a formulary tier other than "Tier 0 – no *cost share*") at no cost to you on you or your medical practitioner's request. To exercise this right, please get in touch with your medical practitioner. Your medical practitioner can utilize the usual *prior authorization* request process. See " Prescription Drug Exception Process" below for additional details.

Non-Formulary Prescription Drugs:
Under the Affordable Care Act, you have the right to request coverage of *prescription drugs* that are not listed on the plan formulary (otherwise known as "non-formulary drugs"). To exercise this right, please get in touch with your medical practitioner. Your medical practitioner can utilize the usual *prior authorization* request process. See "Prescription Drug Exception Process" below for additional details.

Prescription Drug Synchronization
Under Texas law, you have the right to request synchronization of your medications. Synchronization is alignment of your fill dates so that all of your medication-refill dates are on the same day. For example, if you fill medication A on the 5th of each month and your prescriber prescribes you a new prescription B on the 20th of the month, you have the right to request a refill for prescription B that is shorter or longer than 30 calendar days. This may help you adjust your fill dates for medication B and synchronize the fill dates with medication A. We will adjust *copays* to reflect shorter or longer coverage. If you would like to exercise this right, please call Member Services.

Third Party Payment for Prescription Drugs
We will apply any third-party payment, financial assistance, discount, product voucher, or other reduction in out-of-pocket expenses made by or on behalf of an *enrollee* to the *deductible*, *copayment*, *cost sharing* responsibility, or *out-of-maximum.*

Prescription Drug Exception Process
Standard exception request
An *enrollee*, an *enrollee's* authorized representative or an *enrollee's* prescribing *provider* may request a standard review of a decision that a drug is not covered by the plan. The request can be made in writing or by telephone. Within 72 hours of the request being received, we will provide the *enrollee*, the *enrollee's* authorized representative or the *enrollee's* prescribing *provider* with our coverage determination. If we do not deny a standard exception request within 72 hours, the request is considered granted. Should the standard exception request be granted, we will provide coverage of the non-formulary drug for the duration of the prescription, including refills.

Expedited exception request
An *enrollee*, an *enrollee's* authorized representative or an *enrollee's* prescribing *provider* may request an expedited review based on exigent circumstances. Exigent circumstances exist when an *enrollee* is suffering from a health condition that may seriously jeopardize the *enrollee's* life, health, or ability to regain maximum function or when an *enrollee* is undergoing a current course of treatment using a non-formulary drug. Within 24 hours of the request being received, we will provide the *enrollee*, the *enrollee's* authorized representative or the *enrollee's* prescribing *provider* with our coverage determination. If we do not deny an expedited exception request within 24 hours, the request is considered granted. Should the expedited exception request be granted, we will provide coverage of the non-formulary drug for the duration of the exigency.

External exception request review
If we deny a request for a standard exception or for an expedited exception, the *enrollee* or the *enrollee's* authorized representative may request that the denial of such request be reviewed by an external review organization. The external review organization will make the determination on the denied exception request and notify the *enrollee* or the *enrollee's* authorized representative of the coverage determination no later than 72 hours following receipt of the request, if the original request was a standard exception, and no later than 24 hours following its receipt of the request, if the original request was an expedited exception.

If we or the external review organization grants an exception for a standard or expedited exception request, we will provide coverage of the non-formulary drug for the duration of the exigency.

Exception to step therapy or fail first protocol:
We will grant an exception to step therapy or fail first protocol when:

1. The drug required under the step therapy protocol:
   a. Is contraindicated;
   b. Will likely cause an adverse reaction in or physical or mental harm to the patient;
   c. Is expected to be ineffective based on the known clinical characteristics of the patient and the known characteristics of the prescription drug regimen;
   d. The patient previously discontinued taking the drug required under the step therapy protocol, or another prescription drug in the same pharmacologic class or with the same mechanism of action as the required drug, while under the health benefit plan currently in force or while covered under another health benefit plan because the drug was not effective or had a diminished effect or because of an adverse event;
2. The drug required under the step therapy protocol is not in the best interest of the patient, based on clinical appropriateness, because the patient's use of the drug is expected to:
   a. Cause a significant barrier to the patient's adherence to or compliance with the patient's plan of care;
   b. Worsen a comorbid condition of the patient; or
   c. Decrease the patient's ability to achieve or maintain reasonable functional ability in performing daily activities.
3. The drug that is subject to the step therapy protocol was prescribed for the patient's condition and:
   a. The patient received benefits for the drug under the health benefit plan currently in force or a previous health benefit plan;
   b. The patient is stable on the drug; and
   c. The change in the patient's prescription drug regimen required by the step therapy protocol is expected to be ineffective or cause harm to the patient based on the known clinical characteristics of the patient and the known characteristics of the required prescription drug regimen.
4. Under Texas law, treatment for serious *mental health disorders* will be provided under the following terms:
   a. If the product is subject to utilization management technique such as *prior authorization,* we will only require trial and failure of one other product prior to approval of requested product;
   b. We may require that the *enrollee* try a generic version of the requested drug prior to the brand version of the same drug;
   c. We will require approval under section only once a year.

For product approved under this section we will issue an approval letter outlining coverage under this *contract*. For any product denied under this section, you have the right to appeal our decision. Any product requested under this section will be reviewed within 72 hours of receipt of the request for standard requests and within 24 hours of receipt of urgent or exigent request. If we fail to respond to a step therapy request with 24 hours for urgent and 72 hour for standard requests, such requests will be automatically approved.

Lock-in program
To help improve *enrollee* safety, decrease overutilization and abuse, certain *enrollees* identified through our Lock-in Program, may be locked into a specific pharmacy for the duration of their participation in the lock-in program. *Enrollees* locked into a specific pharmacy will be able to obtain their medication(s) only at specified location. Ambetter pharmacy, together with Medical Management

will review *enrollee* profiles and using specific criteria, will recommend *enrollees* for participation in lock-in program. *Enrollees* identified for participation in lock-in program and associated providers will be notified of *enrollee* participation in the program via mail. Such communication will include information on duration of participation, pharmacy to which *enrollee* is locked-in, and any appeals rights.

Medication Balance-On-Hand
Medication refills are prohibited until an *enrollee's* cumulative balance-on-hand is equal to or fewer than 15 calendar days' supply of medication. This provision operates in addition to any applicable medication quantity limit or refill guidelines.

Split-Fill Dispensing Program
Enrollees are limited to 15 calendar day supplies for the first 90 calendar days when starting new therapy using certain medications (like oral oncology). *Enrollees* pay half the 30 calendar day cost-share for a 15-day supply, and would be responsible for the other half of the 30 calendar day cost share for each additional 15-day supply. After 90 days, *enrollees* will fill their medications for 30 calendar day supplies.

Specialty Drugs
Specialty drugs and other select drug categories are limited to a 30-calendar day supply when dispensed by retail or mail order pharmacies. Please note that only the 90-calendar day supply is subject to the discounted *cost-sharing*. Ambetter permits pharmacies to dispense at mail order discounted *cost sharing* should they request to join our mail order network and accept all terms and conditions. Mail orders less than 90 calendar days are subject to the standard *cost sharing* amount.

"Provision of physician administered drugs through pharmacy benefit (white-bagging)"
The *enrollee* can obtain *physician* administered drugs through any *network* pharmacy and will not be charged differential *copays/co-insurance*. All other standard claim processing and utilization management techniques apply. When an *enrollee* or an *enrollees physician* utilizes a *non-network* pharmacy, the *enrollee* has the right to seek reimbursement for the dispensed drug. We will cover drugs received dispensed by an *non-network* pharmacy in cases where the *enrollee* or the *enrollee's physician* are obtaining specialty physician administered drugs due to:

1. A delay of care would make the *enrollee's* disease progression probable or
2. The use of a *network* pharmacy would
    a. Cause death or patient harm probable;
    b. Cause barrier to the patient's adherence to or compliance with the plan of care; or
    c. Timeliness of the delivery or dosage requirements necessitate delivery by a different pharmacy.

These exceptions apply only to medications with an equivalent FDA-approved Prescription Medication that would be covered under this document if obtained in the United States.

Preventive Care Services

Preventive care services are covered as required by the Affordable Care Act (ACA). According to the ACA, preventive care services must include the following:

1. Evidence based items or services that have in effect a rating of A or B in the current recommendations of the United States Preventive Services Task Force (USPSTF).
2. Immunizations for routine use in children, adolescents and adults that have in effect a recommendation from the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC).
3. With respect to infants, children and adolescents, evidence-informed preventive care and screenings provided for in the comprehensive guidelines supported by the Health Resources and Services Administration (HRSA).

4. With respect to women, such additional preventive care and screenings as provided for in comprehensive guidelines supported by the HRSA to the extent the care is not illegal under *applicable law*.

Preventive care benefits obtained from a network provider are covered without *enrollee* cost share (i.e., covered in full without deductible, coinsurance or copayment). For current information regarding available preventive care benefits, please access the federal government's website at: https://www.healthcare.gov/coverage/preventive-care-benefits/.

Preventive care refers to services or measures taken to promote health and early detection or prevention of diseases and injuries, rather than treating or curing them. Preventive care includes, but is not limited to, immunizations, medications, tobacco cessation treatment, examinations and screening tests tailored to an individual's age, health and family history.

Certain services can be performed for preventive or diagnostic reasons (e.g., mammograms). If a service is deemed preventive care and is appropriately reported/billed, it will be covered under the preventive care services benefit. However, when a service is performed for diagnostic purposes and reported/billed accordingly, it will be considered a non-preventive medical benefit and appropriate cost share will apply. Note: If preventive and diagnostic services are performed during the same visit, applicable cost share will be taken for the latter.

As new preventive care recommendations and guidelines are issued (by the USPSTF, CDC or HRSA), those services will become covered preventive care benefits. According to the ACA, coverage of new recommendations and guidelines become effective upon a plan's start or anniversary date that is one year after the date the recommendation or guideline is issued.

In addition to providing coverage in accordance with the ACA, we also provide preventive care benefits in accordance with applicable State law.

Our Ambetter Health Preventive Services Guide is updated annually and contains detailed information regarding preventive care coverage available to you. It is accessible via our website Ambetter.SuperiorHealthPlan.com. To request a paper copy, please contact Member Services for assistance.

4. You obtain other *minimum essential coverage*.

Such cancellation shall become effective upon receipt, or on such later date specified in the notice. If you cancel, we shall promptly return any unearned portion of the premium paid, but in any event shall return the unearned portion of the premium within 20 calendar days. The earned premium shall be computed on a pro-rata basis. Cancellation shall be without prejudice to any claim originating prior to the effective date of the cancellation.

Discontinuance

You will be offered an option to purchase any other coverage in the individual market we offer in your state at the time of discontinuance of this *contract*. This option to purchase other coverage will be on a guaranteed issue basis without regard to health status.

If a person ceases to be an *enrollee* due to the fact that the person no longer meets the definition of *dependent enrollee* under the *contract*, the person will be eligible for continuation of coverage. If elected, we will continue the person's coverage under the *contract* by issuing an individual plan. The premium rate applicable to the new *contract* will be determined based on the *residence* of the person continuing coverage. All other terms and conditions of the new *contract*, as applicable to that person, will be the same as this *contract*, subject to any applicable requirements of the State in which that person resides. Any *deductible amounts* and maximum benefit limits will be satisfied under the new contract to the extent satisfied under this *contract* at the time that the continuation of coverage is issued. (If the original coverage contains a family *deductible* which must be met by all e*nrollees* combined, only those expenses incurred by the e*nrollee* continuing coverage under the new contract will be applied toward the satisfaction of the *deductible amount* under the new contract.)

If an *enrollee's* coverage terminates due to a change in marital status, you may be issued coverage that most nearly approximates the coverage of the *contract* which was in effect prior to the change in marital status.

For coverage purchased through the Health Insurance Marketplace, the Health Insurance Marketplace should be contacted for reinstatement.

The Rescissions provision will apply to statements made on the reinstatement application, based on the date of reinstatement.

Changes may be made in your *contract* in connection with the reinstatement. These changes will be sent to you for you to attach to your *contract*. In all other respects, you and we will have the same rights as before your *contract* lapsed.

THIRD PARTY LIABILITY AND COORDINATION OF BENEFITS

As used herein, the term "*third party*" means any party that is, or may be, or is claimed to be responsible for *illness* or *injuries* to an *enrollee*. Such *injuries* or *illness* are referred to as "*third party injuries*." *Third party* includes any parties actually, possibly or potentially responsible for payment of expenses associated with the care or treatment of *third party injuries*, to the extent permitted by Texas law.

If an *enrollee's illness* or *injury* is caused by the acts or omissions of a *third party*, we will not cover a *loss* to the extent that it is paid as part of a settlement or judgment by any *third party*.

If this plan provides benefits under this *contract* to a *enrollee* for expenses incurred due to *third party injuries*, then Superior retains the right to repayment of the full cost of all benefits provided by this plan on behalf of the *enrollee* that are associated with the *third party injuries*. Superior's rights of recovery apply to any recoveries made by or on behalf of the *enrollee* from any sources, including but not limited to:

1. Payments made by a *third party* or any insurance company on behalf of the *third party*;
2. Any payments or awards under an uninsured or underinsured motorist coverage policy if the *enrollee* or *enrollee's immediate family* did not pay the premiums for the coverage;
3. Any Workers' Compensation or disability award or settlement;
4. Medical payments coverage under any automobile policy, premises or homeowners medical payments coverage or premises or homeowners insurance coverage; and
5. Any other payments from a source intended to compensate an *enrollee* for *third party injuries*.

By accepting benefits under this plan, the *enrollee* specifically acknowledges Superior's right of subrogation. When this plan provides health care benefits for expenses incurred due to *third party injuries*, the plan shall be subrogated to the *enrollee's* rights of recovery against any party to the extent of the full cost of all benefits provided by this plan, to the extent permitted by Texas law. Superior may proceed against any party with or without the *enrollee's* consent.

By accepting benefits under this plan, the *enrollee* also specifically acknowledges Superior's right of reimbursement. This right of reimbursement attaches, to the extent permitted by Texas law, when this plan has provided health care benefits for expenses incurred due to *third party injuries* and the *enrollee* or the *enrollee's* representative has recovered any amounts from any source, to the fullest extent permitted by law. By providing any benefit under this plan, Superior is granted an assignment of the proceeds of any settlement, judgment or other payment received by you to the extent of the full cost of all benefits provided by this plan. Superior's right of reimbursement is cumulative with and not exclusive of the plan's subrogation right and Superior may choose to exercise either or both rights of recovery.

As a condition for our payment, the *enrollee* or anyone acting on his or her behalf (including, but not limited to, the guardian, legal representatives, estate, or heirs) agrees:

1. To fully cooperate with us in order to obtain information about the *loss* and its cause.
2. To immediately inform us in writing of any claim made or lawsuit filed on behalf of an *enrollee* in connection with the *loss*.
3. To include the amount of benefits paid by us on behalf of an *enrollee* in any claim made against any *third party*.
4. That we:
    a. Will have a lien on all money received by an *enrollee* in connection with the *loss* we have provided or paid to the extent permitted by Texas law.

b. May give notice of that lien to any *third party* or *third party's* agent or representative.
c. Will have the right to intervene in any suit or legal action to protect our rights.
d. Are subrogated to all of the rights of the *enrollee* against any *third party* to the extent permitted by Texas law of the benefits paid on the *enrollee's* behalf.
e. May assert that subrogation right independently of the *enrollee*.

5. To take no action that prejudices our reimbursement and subrogation rights. This includes, but is not limited to, refraining from making any settlement or recovery which specifically attempts to reduce or exclude the full cost of all benefits provided by this plan to the extent permitted by Texas law.
6. To sign, date, and deliver to us any documents we request that protect our reimbursement and subrogation rights.
7. To not settle any claim or lawsuit against a *third party* without providing us with written notice within 30 calendar days prior to the settlement.
8. To reimburse us from any money received from any *third party*, to the extent permitted by Texas law for benefits we paid for the *third party injury*, whether obtained by settlement, judgment, or otherwise, and whether or not the *third party's* payment is expressly designated as a payment for medical expenses.
9. That we may reduce other benefits under the *contract* by the amounts an *enrollee* has agreed to reimburse us.

We have a right to be reimbursed in full regardless of whether or not the *enrollee* is fully compensated by any recovery received from any *third party* by settlement, judgment, or otherwise.

We may recover the full cost of all benefits provided under this plan without regard to any claim of fault on the part of the member, whether by comparative negligence or otherwise.

In the event of a recovery from a *third party*, we will pay attorney fees or costs associated with the *enrollee's* claim or lawsuit only to the extent required by Texas law unless otherwise agreed.

If a dispute arises as to the amount an *enrollee* must reimburse us, the *enrollee* (or the guardian, legal representatives, estate, or heirs of the *enrollee*) agrees to place sufficient funds in an escrow or trust account to satisfy the maximum lien amount asserted by us until the dispute is resolved.

Coordination of This Contract's Benefits with Other Benefits

The Coordination of Benefits (COB) provision applies when a person has health care coverage under more than one plan. Plan is defined below.

The order of benefit determination rules govern the order in which each plan will pay a claim for benefits. The plan that pays first is called the primary plan. The primary plan must pay benefits in accord with its policy terms without regard to the possibility that another plan may cover some expenses. The plan that pays after the primary plan is the secondary plan. The secondary plan may reduce the benefits it pays so that payments from all plans equal 100 percent of the total allowable expense.

Definitions

1. A "plan" is any of the following that provides benefits or services for medical, vision or dental care treatment. If separate contracts are used to provide coordinated coverage for members of a group, the separate contracts are considered parts of the same plan and there is no COB among those separate contracts.
   a. Plan includes: group, blanket, or franchise accident and health insurance policies, excluding disability income protection coverage; individual and group health maintenance

organization evidences of coverage; individual accident and health insurance policies; individual and group preferred provider benefit plans and *exclusive provider benefit plans*; group insurance contracts, individual insurance contracts and subscriber contracts that pay or reimburse for the cost of dental or vision care; medical care components of individual and group long-term care contracts; limited benefit coverage that is not issued to supplement individual or group in-force policies; uninsured arrangements of group or group-type coverage; the medical benefits coverage in automobile insurance contracts; and Medicare or other governmental benefits, as permitted by law.

b. Plan does not include: disability income protection coverage; the Texas Health Insurance Pool; workers' compensation insurance coverage; *hospital* confinement indemnity coverage or other fixed indemnity coverage; specified disease coverage; supplemental benefit coverage; accident only coverage; specified accident coverage; school accident-type coverages that cover students for accidents only, including athletic *injuries*, either on a "24-hour" or a "to and from school" basis; benefits provided in long-term care insurance contracts for non-medical services, for example, personal care, adult day care, homemaker services, assistance with activities of daily living, *respite care*, and *custodial care* or for contracts that pay a fixed daily benefit without regard to expenses incurred or the receipt of services; Medicare supplement policies; a state plan under Medicaid; a governmental plan that, by law, provides benefits that are in excess of those of any private insurance plan; or other nongovernmental plan; or an individual accident and health insurance policy that is designed to fully integrate with other policies through a variable *deductible*.

Each contract for coverage under (a)(1) or (a)(2) is a separate plan. If a plan has two parts and COB rules apply only to one of the two, each of the parts is treated as a separate plan.

"This plan" means, in a COB provision, the part of the *contract* providing the health care benefits to which the COB provision applies and which may be reduced because of the benefits of *other plans*. Any other part of the *contract* providing health care benefits is separate from this plan. A *contract* may apply one COB provision to certain benefits, such as dental benefits, coordinating only with like benefits, and may apply other separate COB provisions to coordinate other benefits.

The order of benefit determination rules determine whether this plan is a primary plan or secondary plan when the person has health care coverage under more than one plan. When this plan is primary, it determines payment for its benefits first before those of any *other plan* without considering any *other plan's* benefits. When this plan is secondary, it determines its benefits after those of another plan and may reduce the benefits it pays so that all plan benefits equal 100 percent of the total allowable expense.

2. "Allowable expense" is a health care expense, including *deductibles*, *coinsurance*, and *copayments,* that is covered at least in part by any plan covering the person. When a plan provides benefits in the form of services, the reasonable cash value of each service will be considered an allowable expense and a benefit paid. An expense that is not covered by any plan covering the person is not an allowable expense. In addition, any expense that a health care *provider* or *physician* by law or in accord with a contractual agreement is prohibited from charging a covered *enrollee* is not an allowable expense. The following are examples of expenses that are not allowable expenses:
   a. The difference between the cost of a semi-private *hospital* room and a private *hospital* room is not an allowable expense, unless one of the plans provides coverage for private *hospital* room expenses.
   b. If a person is covered by two or more plans that do not have negotiated fees and compute their benefit payments based on the usual and customary fees, allowed amounts, relative

value schedule reimbursement methodology, or other similar reimbursement methodology, any amount in excess of the highest reimbursement amount for a specific benefit is not an allowable expense.

c. If a person is covered by two or more plans that provide benefits or services on the basis of negotiated fees, an amount in excess of the highest of the negotiated fees is not an allowable expense.
d. If a person is covered by one plan that does not have negotiated fees and that calculates its benefits or services based on usual and customary fees, *billed amounts*, relative value schedule reimbursement methodology, or other similar reimbursement methodology, and another plan that provides its benefits or services based on negotiated fees, the primary plan's payment arrangement must be the allowable expense for all plans. However, if the health care *provider* or *physician* has contracted with the secondary plan to provide the benefit or service for a specific negotiated fee or payment amount that is different than the primary plan's payment arrangement and if the health care *provider's* or *physician's* contract permits, the negotiated fee or payment must be the allowable expense used by the secondary plan to determine its benefits.
e. The amount of any benefit reduction by the primary plan because a covered *enrollee* has failed to comply with the plan provisions is not an allowable expense. Examples of these types of plan provisions include second surgical opinions, *prior authorization* of admissions, and preferred health care *provider* and *physician* arrangements.
f. When an *enrollee* is also a Medicare beneficiary, and Medicare is primary, the allowable expense is Medicare's *allowable amount*.

3. "*Billed amount*" is the amount of a *billed charge* that a carrier determines to be covered for services provided by a *non-network provider* or *physician*. The *allowed amount* includes both the carrier's payment and any applicable *deductible*, *copayment*, or *coinsurance* amounts for which the *enrollee* is responsible.
4. "Closed panel plan" is a plan that provides health care benefits to covered *enrollees* primarily in the form of services through a panel of health care *providers* and *physicians* that have contracted with or are employed by the plan, and that excludes coverage for services provided by other health care *providers* and *physicians*, except in cases of emergency or referral by a panel member.
5. "Custodial parent" is the parent with the right to designate the primary *residence* of a child by a court order under the Texas Family Code or other *applicable law*, or in the absence of a court order, is the parent with whom the child resides more than one-half of the calendar year, excluding any temporary visitation.

Order of Benefit Determination Rules

When a person is covered by two or more plans, the rules for determining the order of benefit payments are as follows:

1. The primary plan pays or provides its benefits according to its terms of coverage and without regard to the benefits under any *other plan*.
2. Except as provided in (c), a plan that does not contain a COB provision that is consistent with this *contract* is always primary unless the provisions of both plans state that the complying plan is primary.
3. Coverage that is obtained by virtue of membership in a group that is designed to supplement a part of a basic package of benefits and provides that this supplementary coverage must be excess to any other parts of the plan provided by the contract holder. Examples of these types of situations are major medical coverages that are superimposed over base plan *hospital* and surgical benefits, and insurance type coverages that are written in connection with a closed panel plan to provide non-network benefits.

4. A plan may consider the benefits paid or provided by another plan in calculating payment of its benefits only when it is secondary to that *other plan*.
5. If the primary plan is a closed panel plan and the secondary plan is not, the secondary plan must pay or provide benefits as if it were the primary plan when a covered *enrollee* uses a non-contracted health care *provider* or *physician*, except for emergency services or *authorized* referrals that are paid or provided by the primary plan.
6. When multiple contracts providing coordinated coverage are treated as a single plan under this subchapter, this section applies only to the plan as a whole, and coordination among the component contracts is governed by the terms of the contracts. If more than one carrier pays or provides benefits under the plan, the carrier designated as primary within the plan must be responsible for the plan's compliance with this subchapter.
7. If a person is covered by more than one secondary plan, the order of benefit determination rules of this subchapter decide the order in which secondary plans' benefits are determined in relation to each other. Each secondary plan must take into consideration the benefits of the primary plan or plans and the benefits of any *other plan* that, under the rules of this *contract*, has its benefits determined before those of that secondary plan.
8. Each plan determines its order of benefits using the first of the following rules that apply.
   a. Nondependent or Dependent. The plan that covers the person other than as a dependent, for example as an employee, *enrollee*, contract holder, subscriber, or retiree, is the primary plan, and the plan that covers the person as a dependent is the secondary plan. However, if the person is a Medicare beneficiary and, as a result of federal law, Medicare is secondary to the plan covering the person as a dependent and primary to the plan covering the person as other than a dependent, then the order of benefits between the two plans is reversed so that the plan covering the person as an employee, *enrollee*, contract holder, subscriber, or retiree is the secondary plan and the *other plan* is the primary plan. An example includes a retired employee.
   b. Dependent Child Covered Under More Than One Plan. Unless there is a court order stating otherwise, plans covering a dependent child must determine the order of benefits using the following rules that apply.
      i. For a dependent child whose parents are married or are living together, whether or not they have ever been married:
         1) The plan of the parent whose birthday falls earlier in the calendar year is the primary plan; or
         2) If both parents have the same birthday, the plan that has covered the parent the longest is the primary plan.
      ii. For a dependent child whose parents are divorced, separated, or not living together, whether or not they have ever been married:
         1) If a court order states that one of the parents is responsible for the dependent child's health care expenses or health care coverage and the plan of that parent has actual knowledge of those terms, that plan is primary. If the parent with responsibility has no health care coverage for the dependent child's health care expenses, and that parent's *spouse* does, then the *spouse's* plan is the primary plan. This rule applies to plan years commencing after the plan is given notice of the court decree.
         2) If a court order states that both parents are responsible for the dependent child's health care expenses or health care coverage, the provisions of (h)(2)(A) must determine the order of benefits.
         3) If a court order states that the parents have joint custody without specifying that one parent has responsibility for the health care expenses or health care coverage of the dependent child, the provisions of (h)(2)(A) must determine the order of benefits.
         4) If there is no court order allocating responsibility for the dependent child's health care expenses or health care coverage, the order of benefits for the child are as follows:

a) the plan covering the custodial parent;
b) the plan covering the *spouse* of the custodial parent;
c) the plan covering the noncustodial parent; then
d) the plan covering the *spouse* of the noncustodial parent.

iii. For a dependent child covered under more than one plan of individuals who are not the parents of the child, the provisions of (h)(2)(A) or (h)(2)(B) must determine the order of benefits as if those individuals were the parents of the child.

iv. For a dependent child who has coverage under either or both parents' plans and has his or her own coverage as a dependent under a *spouse's* plan, (h)(5) applies.

v. In the event the dependent child's coverage under the *spouse's* plan began on the same date as the dependent child's coverage under either or both parents' plans, the order of benefits must be determined by applying the birthday rule in (h)(2)(A) to the dependent child's parent(s) and the dependent's *spouse*.

c. Active, Retired, or Laid-off Employee. The plan that covers a person as an active employee, that is, an employee who is neither laid off nor retired, is the primary plan. The plan that covers that same person as a retired or laid-off employee is the secondary plan. The same would hold true if a person is a dependent of an active employee and that same person is a dependent of a retired or laid-off employee. If the plan that covers the same person as a retired or laid-off employee or as a dependent of a retired or laid-off employee does not have this rule, and as a result, the plans do not agree on the order of benefits, this rule does not apply. This rule does not apply if (h)(1) can determine the order of benefits.

d. COBRA or State Continuation Coverage. If a person whose coverage is provided under COBRA or under a right of continuation provided by state or other federal law is covered under another plan, the plan covering the person as an employee, enrollee, subscriber, or retiree or covering the person as a dependent of an employee, enrollee, subscriber, or retiree is the primary plan, and the COBRA, state, or other federal continuation coverage is the secondary plan. If the other plan does not have this rule, and as a result, the plans do not agree on the order of benefits, this rule does not apply. This rule does not apply if (h)(1) can determine the order of benefits.

e. Longer or Shorter Length of Coverage. The plan that has covered the person for the longer period of time is the primary plan, and the plan that has covered the person the shorter period of time is the secondary plan.

f. If the preceding rules do not determine the order of benefits, the allowable expenses must be shared equally between the plans meeting the definition of plan. In addition, this plan will not pay more than it would have paid had it been the primary plan.

Effect on The Benefits of This Plan

1. When this plan is secondary, it may reduce its benefits so that the total benefits paid or provided by all plans are not more than the total allowable expenses. In determining the amount to be paid for any claim, the secondary plan will calculate the benefits it would have paid in the absence of other health care coverage and apply that calculated amount to any allowable expense under its plan that is unpaid by the primary plan. The secondary plan may then reduce its payment by the amount so that, when combined with the amount paid by the primary plan, the total benefits paid or provided by all plans for the claim equal 100 percent of the total allowable expense for that claim. In addition, the secondary plan must credit to its plan *deductible* any amounts it would have credited to its *deductible* in the absence of other health care coverage.
2. When an *enrollee* is also a Medicare beneficiary, this plan is secondary. In that case, the allowable expense is reduced to reflect Medicare's *allowable amount*. At no point should this plan's *allowable amount* exceed what the plan would pay if the plan was primary. *Enrollees*

may no longer be eligible to receive a premium subsidy for the Health Insurance Marketplace plan once Medicare coverage becomes effective.

3. If a covered *enrollee* is enrolled in two or more closed panel plans and if, for any reason, including the provision of service by a non-panel *provider*, benefits are not payable by one closed panel plan, COB must not apply between that plan and other closed panel plans.

Compliance with Federal and State Laws Concerning Confidential Information

Certain facts about health care coverage and services are needed to apply these COB rules and to determine benefits payable under this plan and *other plans*. This plan will comply with federal and state law concerning confidential information for the purpose of applying these rules and determining benefits payable under this plan and *other plans* covering the person claiming benefits. Each person claiming benefits under this plan must give the plan any facts it needs to apply those rules and determine benefits.

Facility of Payment

A payment made under another plan may include an amount that should have been paid under this plan. If it does, this plan may pay that amount to the organization that made that payment. That amount will then be treated as though it were a benefit paid under this plan. This plan will not have to pay that amount again. The term “payment made” includes providing benefits in the form of services, in which case “payment made” means the reasonable cash value of the benefits provided in the form of services.

Right of Recovery

If the amount of the payments made by this plan is more than it should have paid under this COB provision, it may recover the excess from one or more of the persons it has paid or for whom it has paid or any other person or organization that may be responsible for the benefits or services provided for the covered *enrollee*. The “amount of the payments made” includes the reasonable cash value of any benefits provided in the form of services.

To request reimbursement for a *covered service*, you need a copy of the detailed claim from the *provider*. No Third Party Beneficiaries

This *contract* is not intended to, nor does it, create or grant any rights in favor of any *third party*, including but not limited to any *hospital, provider* or medical practitioner providing services to you, and this *contract* shall not be construed to create any *third party* beneficiary rights.

COMPLAINT AND APPEAL PROCEDURES

Complaint Process

For oral *complaints* received and not confirmed in writing, we will research the issue as best practice and communicate findings to you verbally.

An expedited *complaint* concerning an emergency or denial of continued stay for hospitalization will be resolved in one business day of receipt of your *complaint*. The investigation and resolution shall be concluded in accordance with the medical immediacy of your health condition and we will send you a letter with our resolution within three business days.

You may use the *appeals* process to resolve a dispute regarding the resolution of your *complaint*.

Complaint Appeals

1. If the *complaint* is not resolved to your satisfaction, you have the right either to appear in person before a complaint appeal panel where you normally receive health care services, unless another site is agreed to by you, or to address a written *appeal* to the complaint appeal panel. We shall complete the *appeals* process no later than the 30 calendar days after the date of the receipt of the request for *appeal*, except with respect to *appeals* relating to ongoing emergencies or denial of continued stays for hospitalization which shall be concluded in accordance with the medical immediacy of the case but in no event to exceed one business day after your request for *appeal*.
2. We shall send an acknowledgment letter to you not later the fifth business day after the date of receipt of the request of the *appeal*.

3. We shall appoint members to the complaint appeal panel, which shall advise us on the resolution of the dispute. The complaint appeal panel shall be composed of an equal number of our staff, *providers*, and *enrollees*. A member of the appeal panel may not have been previously involved in the disputed decision.
4. Not later than the fifth business day before the scheduled meeting of the panel, unless you agree otherwise, we shall provide to you or your designated representative:
   a. Any documentation to be presented to the panel by our staff;
   b. The specialization of any *providers* consulted during the investigation; and
   c. The name and affiliation of each of our representatives on the panel.
5. You, or your designated representative if you are a minor or disabled, are entitled to:
   a. Appear in person before the complaint appeal panel;
   b. Present alternative expert testimony; and
   c. Request the presence of and question any person responsible for making the prior determination that resulted in the appeal.
6. Investigation and resolution of *appeals* relating to ongoing emergencies or denial of continued stays for hospitalization shall be concluded in accordance with the medical immediacy of the case but in no event to exceed one business day after your request for *appeal*.
7. Due to the ongoing emergency or continued *hospital* stay, and at your request, we shall provide, in lieu of a complaint appeal panel, a review by a *provider* who has not previously reviewed the case and is of the same or similar specialty as typically manages the medical condition, procedure, or treatment under discussion for review of the *appeal*.
8. Notice of our final decision on the *appeal* must include a statement of the specific medical determination, clinical basis, and contractual criteria used to reach the final decision.

Appeal of Adverse Determination

If you, your designated representative, or your *provider* of record disagree with an *adverse determination*, you, your designated representative, or your *provider* may *appeal* the *adverse determination* orally or in writing. An *enrollee* has 180 calendar days following receipt of a notification of an *adverse determination* to file an *appeal*.

For a standard *appeal*, we will acknowledge your *appeal* within five business days after receiving a written *appeal* of the *adverse determination*, we or our Utilization Review Agent will send you, your designated representative, or your *provider*, a letter acknowledging the date of receipt of the *appeal*. The letter will also include a list of documents that you, your designated representative, or your *provider* should send to us or to our Utilization Review Agent for the *appeal*. The *appeal* will be resolved no later than 30 calendar days after the date we or our Utilization Review Agent receives the *appeal*.

If you, your designated representative, or your *provider* orally *appeal* the *adverse determination*, we or our Utilization Review Agent will send you, your designated representative, or your *provider* a one-page appeal form. You are not required to return the completed form, but we encourage you to because it will help us resolve your *appeal*.

Expedited *appeals* of *adverse determinations* involving ongoing emergencies or denials of continued stays in a *hospital,* denials of *prescription drugs*, intravenous infusions, or a denied step therapy protocol exception will be resolved no later than one working day, or 72 hours, whichever is lesser, upon receipt of your request.

With respect to retrospective utilization review, if additional time is needed due to matters beyond our control, you or your designated representative will be notified before the thirtieth (30th) calendar day with specific reasons why the additional time is needed and the additional time will be no greater than 15 calendar days.

You can also request an expedited *appeal* for an urgent care denial. We will answer your *appeal* for urgent care within one working day or 72 hours, whichever is lesser, upon receipt of your request. You can request an expedited *appeal* for urgent care if:

1. You think the denial could seriously hurt your life or health.
2. Your *provider* thinks that you will experience severe pain without the denied care or treatment.

External Review

If the *appeal* of the *adverse determination* is denied (including a denial of an *experimental or investigational* treatment*)*, you or your designated representative have the right to request an external review of that decision. The external review organization is not affiliated with us or our Utilization Review Agent. You may also request an external review without first completing an internal *appeal* if your internal *appeal* rights have already been exhausted.

In circumstances involving a life-threatening condition, *emergency services*, hospitalized *enrollees*, denials of *prescription drugs*, intravenous infusions, or a denied step therapy protocol exception, you, your designated representative, or your *provider* is entitled to an immediate external review without having to comply with the procedures for internal *appeals* of *adverse determinations*.

You or your designated representative can ask for a standard external review within four months after the date you receive the final internal *appeal* determination notice. Your request should be submitted directly to the external review organization, and you must provide the following information: name and address, phone number, email address, whether the request is urgent or standard, a completed Appointment of Representative Form if someone is filing on your behalf, and a brief description of the reason you disagree with our decision. When the external review organization completes its review and issues its decision, we will abide by the decision.

The *appeal* procedures described above do not prohibit you from pursuing other appropriate remedies, including injunctive relief, declaratory judgment, or other relief available under law, if you believe that the requirement of completing the *appeal* and review process places your health in serious jeopardy.

Simultaneous Expedited Appeal and Expedited Internal Review

In the case of an *appeal* involving urgent care, you or your authorized representative may also request an expedited internal review. A request for expedited internal *appeal* may be submitted orally or in writing by the *enrollee* or their authorized representative; and all necessary information, including the plan's benefit determination on review, shall be transmitted between the plan and the *enrollee* or their authorized representative by telephone, facsimile, or other expeditious method. You may also request an expedited external review without first completing an internal *appeal* if your internal *appeal* rights have already been exhausted.
