Important Questions	Answers	Why this Matters:
What is the overall deductible?	\$500 individual / \$1,000 family. Does not apply to preventive care.	You must pay all the costs up to the <u>deductible</u> amount before this plan begins to pay for covered services you use. Check your policy plan or plan document to see when the <u>deductible</u> starts over (usually, but not always, January 1st). See the chart starting on page 2 for how much you pay for covered services after you meet the <u>deductible</u> .
Are there other deductibles for specific services?	No	You don't have to meet <u>deductibles</u> for specific services, but see the chart starting on page 2 for other costs for services this plan covers.
Is there an <u>out-of-</u> <u>pocket-limit</u> on my expenses?	Yes, for in-network providers \$2,250 individual/\$4,500 family. No, for out-of-network providers.	The <u>out-of-pocket limit</u> is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the <u>out-of-pocket limit</u> ?	Premiums, balance-billed charges, and out-of-network services this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Is there an overall annual limit on what the plan pays?	No	The chart starting on page 2 describes any limits on what the plan will pay for <i>specific</i> covered services, such as office visits.
Does this plan use a <u>network</u> of <u>providers</u> ?	Yes. See http:// marketplace.illinicare.com/ findadocor call 1-855-745-5507for a list of participating providers.	If you use an in-network doctor or other health care provider , this plan will pay some or all of the costs of covered services. Be aware, your in-network doctor or hospital may use an out-of-network provider for some services. Plans use the term in-network, preferred , or participating for providers in their network . See the chart starting on page 2 for how this plan pays different kinds of providers .
Do I need a referral to see a specialist?	No, you don't need a referral to see a specialist.	You can see the specialist you choose without permission from this plan.
Are there services this plan doesn't cover?	Yes	Some of the services this plan doesn't cover are listed on page 6. See your policy or plan document for additional information about <u>excluded services</u> .

- Copayments are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service
- <u>Coinsurance</u> is *your* share of the costs of a covered service, calculated as a percent of the <u>allowed amount</u> for the service. For example, if the plan's <u>allowed amount</u> for an overnight hospital stay is \$1,000, your <u>coinsurance</u> payment of 20% would be \$200. This may change if you haven't met your <u>deductible</u>.
- The amount the plan pays for covered services is based on the <u>allowed amount</u>. If an out-of-network <u>provider</u> charges more than the <u>allowed amount</u> you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the <u>allowed amount</u> is \$1,000, you may have to pay the \$500 difference. (This is called <u>balance billing</u>).
- This plan may encourage you to use in-network providers by charging you lower deductibles, copayments, and coinsurance amounts.

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network <u>providers</u>. If the patient had received care from out-of-network <u>providers</u>, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Examples helps you see how <u>deductibles</u>, <u>copayments</u>, and <u>coinsurance</u> can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

No. Coverage Examples are **not** cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as copayments, deductibles, and coinsurance. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
